

The third week of May

**Awakened by Grace, Lifted by Resurrection**

As the world warms and creation stretches toward the sun, we are invited to remember the warmth of God's restoring love. The resurrection is not just a moment in history—it is a present reality that awakens our souls. Christ's risen life breathes courage into weary hearts and strength into places we thought were gone. Spring teaches us to rise again, to lift our eyes, and to trust that God is working in the unseen. Every sunrise, every blossom, every breeze carries the same message: *Grace is making all things new.*

**And in this season of awakening, we are reminded that resurrection is not distant—it is personal.** God meets us in our quiet places, our hidden struggles, our unspoken hopes. He lifts us gently, faithfully, and powerfully. As creation comes alive around us, our spirits are invited to awaken to His renewing presence.
